

STCR is a premier solution provider for retailers in the Northeast and across the United States. Brian Tuberman, President of STCR, has built an incredible team focused on supporting retailers in the grocery, specialty retail, natural food and c-store industries. For over 10 years, STCR and LOC Software have partnered to provide the best solution with LOC's Store Management Suite (SMS). STCR delivers a complete retail solution including point-of-Sale, self-checkout, back office, e-commerce, loyalty and a corporate solution designed to manage multi-stores.

STCR has a dedicated team who are 100% focused on supporting customers. They have built a team of technical experts that deliver all the services that a retailer requires to manage technology in stores. Their team will assist with training, support, installation, and they can deliver custom requirements to run very unique businesses.

LOC Software continues to work closely with STCR, and we endorse Mr. Tuberman's team as a Diamond Partner in the Northeast and beyond.

Please contact STCR for all of your retail management technology needs.

Sincerely,

A handwritten signature in blue ink that reads 'Guy Leger'.
